

Together We Can Bring Change.

Spread the Word: Host a House Meeting

In house meetings, volunteers invite neighbors and friends into their homes to talk about building a stronger voice for working families. House meetings help participants connect the dots between policymaking in Washington and its impact here at home. Most importantly, house meetings empower people to make a difference through action in their community. Host a house meeting and help organize for a better community.

Take Control: Holding Elected Officials Accountable

Working Families Win volunteers insist our representatives take a stand on the issues that are preventing America's working families from reaching the American Dream: ensuring stimulus funds go to working neighborhoods; providing affordable healthcare; making tuition costs reasonable; delivering a real living wage; launching cleaner, smarter, more cost effective energy; and rewarding honest hard work over irresponsible Wall Street schemes.

Hit the Streets: Voter Education

Help voters in your community understand where the candidates stand on our issues. By talking to voters on their doorsteps and in their living rooms, you are making this election about real issues - issues that affect your neighbors and community every day.

It's Time for an Economic Bill of Rights for America

Working Families Win Organizes in Support of

President Franklin D. Roosevelt's "Economic Bill of Rights"

— January 11, 1944

"Under which a new basis of security and prosperity can be established for all—regardless, of station, race, or creed."

- The right to a useful and remunerative job in the industries or shops or farms or mines of the nation.
- The right to earn enough to provide adequate food and clothing and recreation.
- The right of every farmer to raise and sell his products at a return which will give him and his family a decent living.
- The right of every businessman, large and small, to trade in an atmosphere of freedom from unfair competition and domination by monopolies at home or abroad.
- The right of every family to a decent home.
- The right to adequate medical care and the opportunity to achieve and enjoy good health.
- The right to adequate protection from the economic fears of old age, sickness, accident, and unemployment.
- The right to a good education.

Conservative Extremists and their Wall Street Allies Have Put Working Families in Peril.

- ✓ Over 17.5% of Americans – one in six – are out of the full time jobs they want.
- ✓ 8 million jobs have been lost because Wall Street speculators created "toxic assets" with no regulation.
- ✓ Good jobs have left our communities and have been replaced by lower wage jobs, often without benefits.
- ✓ Daily living costs are skyrocketing, yet wages for most workers are stagnant at best.
- ✓ Real American families are struggling to pay escalating healthcare, energy, and college tuition costs.
- ✓ Millions of homes have been lost to foreclosure and families are being buried under a mountain of debt.
- ✓ The basics of the American Dream are becoming luxuries for the fortunate few.

We Need Your Help.

Join us and help working families win!

The Conservative Extremists and Wall Street have turned a deaf ear to the crisis facing working families. Escalating healthcare, unaffordable college tuition, surging unemployment rates, uncontrollable energy costs, and tax payer hand outs for Wall Street CEO's.

Together we can change America and help create a democratic society as it should be.

Who We Are...

Working Families Win is a non-profit and non-partisan organization working to change public policy in favor of working families.

We organize communities through neighbor to neighbor meetings.

We help people connect the dots between what happens in Washington, what happens in boardrooms, and how it affects the future of working families."

We are dedicated to making President Franklin D. Roosevelt's "Economic Bill of Rights" a reality in American life.
